

SULEKHA MISHRA

Java Full Stack Developer

Bengaluru, India | +91 9861796317 | msulekha277@gmail.com

LinkedIn: <https://linkedin.com/in/sulekha-mishra> Github: <https://github.com/sulekhamishr>

PROFESSIONAL SUMMARY

Java Developer with **11 months of professional experience** and **6 months of internship experience** in enterprise application development. Proficient in **Core Java, Spring Framework, Hibernate** and **Database Technologies**. Strong understanding of **Object-Oriented Programming (OOP), Java Collections Framework, Software Development Life Cycle (SDLC), Agile Scrum methodologies, Debugging, Unit Testing**, and **Application Development Best Practices**. Experienced in developing, maintaining, and enhancing scalable, high-performance applications. Passionate about building robust software solutions, solving complex technical problems, and continuously learning modern technologies and industry best practices.

CORE COMPETENCIES

Java Development • Spring Boot • Hibernate • Oracle • PostgreSQL • SQL Optimization • Backend development • Git • Agile Scrum • JUnit

TECHNICAL SKILLS

- **Programming:** Java 8, J2EE, JavaScript
- **Backend:** Spring Boot, Spring MVC, Hibernate 3.6, JSF, REST APIs, Spring AI, XML
- **Frontend:** React.js, HTML5, CSS3, JavaScript
- **Databases:** Oracle, PostgreSQL, MySQL
- **Tools:** Git, Maven, JIRA
- **Testing:** JUnit, Mockito, Unit Testing
- **Methodologies:** Agile Scrum, SDLC

PROFESSIONAL EXPERIENCE

Software Engineer | Infinite Computer Solutions | Bengaluru

August 2025 – Present

- Developed and maintained enterprise web applications using Java, JSF 2.2, and Hibernate 3.6.
- Implemented business logic using Core Java and Object-Oriented Programming principles.
- Developed persistence layers using Hibernate XML-based configuration.
- Designed, developed, and optimized SQL queries for Oracle Database and PostgreSQL.
- Implemented CRUD operations and integrated application modules with relational databases.
- Developed responsive web pages using HTML5, CSS3, and JavaScript.
- Analyzed and resolved production issues while enhancing application performance and stability.
- Performed unit testing using JUnit and Mockito to ensure application quality.
- Managed project dependencies and build lifecycle using Maven.
- Used Git for source code management and version control.
- Tracked user stories, defects, and sprint tasks using Jira.
- Collaborated with cross-functional teams in Agile Scrum environments.

- Participated in all phases of the Software Development Life Cycle (SDLC), including requirement analysis, development, testing, deployment support, and maintenance.

-

Java Full Stack Developer Intern | Infinite Computer Solutions

Mar 2025 – August 2025

- Assisted in developing Java-based enterprise applications.
- Worked with Java, SQL, Oracle Database, and PostgreSQL.
- Assisted in implementing business logic and database operations.
- Participated in debugging, testing, and application maintenance.
- Supported software development activities using Git and Maven.
- Collaborated with senior developers during code reviews and testing.

PROJECTS

Alaska MMIS TSU Portal

Technologies: Core Java, JSF, Hibernate, JDBC, XML, HTML, CSS, JavaScript, Oracle

- Resolved 15+ critical TSU defects in the Alaska Medicaid Management Information System (MMIS) , ensuring regulatory compliance and timely delivery.
- Reduced UAT portal failure rate by identifying and fixing recurring issues across multiple sprint cycles.
- Prepared technical documentation and JUnit unit test cases; led triage calls to resolve project blockers and improve delivery efficiency.
- Supported maintenance and enhancements for HIPAA-compliant healthcare claims processing workflow in a regulated enterprise environment.

Task Management System

Technologies: Java, Spring Boot, Spring Data JPA, PostgreSQL, REST APIs, JUnit, Maven

- Developed a Task Management application using Spring Boot and PostgreSQL.
- Created REST APIs for task creation, update, retrieval, and deletion.
- Implemented validation and exception handling for robust API development.
- Integrated Spring Data JPA for database operations.
- Performed unit testing using JUnit to ensure application quality.

EDUCATION

Bachelor of Technology (Computer Science Engineering and Artificial Intelligence)
GITA Autonomous College | 2021 – 2025

LANGUAGES

English, Hindi, Odia, Japanese (Basic)
