

SULEKHA MISHRA

Java Full Stack Developer

Bengaluru, India | +91 9861796317 | msulekha277@gmail.com

LinkedIn: <https://linkedin.com/in/sulekha-mishra> Github: <https://github.com/sulekhamishr>

PROFESSIONAL SUMMARY

Java Developer with **11 months of professional experience** and **6 months of internship experience** in enterprise application development. Proficient in **Core Java, Spring Framework, Hibernate** and **Database Technologies**. Strong understanding of **Object-Oriented Programming (OOP)**, **Java Collections Framework**, **Software Development Life Cycle (SDLC)**, **Agile Scrum methodologies**, **Debugging**, **Unit Testing**, and **Application Development Best Practices**. Experienced in developing, maintaining, and enhancing scalable, high-performance applications. Passionate about building robust software solutions, solving complex technical problems, and continuously learning modern technologies and industry best practices.

CORE COMPETENCIES

- Java Development • Spring Boot • Hibernate • React.js • REST APIs • Oracle • PostgreSQL • SQL Optimization
- Backend development • Git • Agile Scrum • JUnit

TECHNICAL SKILLS

- **Programming:** Java 8, J2EE, JavaScript
- **Backend:** Spring Boot, Spring MVC, Spring AI, Hibernate, JSF, JDBC, RESTful APIs,
- **Frontend:** React.js, HTML5, CSS3, JavaScript
- **Databases:** Oracle, PostgreSQL, MySQL
- **Tools:** Git, Maven, JIRA, SLF4J/Log4j
- **Testing:** JUnit, Mockito, Unit Testing
- **Methodologies:** Agile Scrum, SDLC

PROFESSIONAL EXPERIENCE

Software Engineer | Infinite Computer Solutions | Bengaluru

August 2025 – Present

- Maintained and enhanced enterprise healthcare applications using Java, JSF 2.2, Hibernate 3.6, and PostgreSQL.
- Developed and optimized SQL queries for Oracle and PostgreSQL databases.
- Implemented and maintained CRUD operations and database integrations using Hibernate.
- Analyzed, tracked, and resolved defects reported during UAT, testing, and production support.
- Collaborated with QA teams to troubleshoot issues and deliver high-quality solutions.
- Performed unit testing using JUnit and Mockito to ensure application reliability.
- Utilized Git, Maven, Jira, and Log4j for version control, build management, issue tracking, and logging.
- Participated in Agile Scrum ceremonies and all phases of the Software Development Life Cycle (SDLC).

Java Full Stack Developer Intern | Infinite Computer Solutions

Mar 2025 – August 2025

- Developed modules for the Health Sure healthcare application using Java, JSF, Hibernate, SQL, HTML, CSS, and JavaScript.
- Implemented business requirements and application enhancements using Core Java, OOP principles, and POJOs.
- Worked on MVC architecture, JSF Managed Beans, and face-config.xml configurations.
- Created and maintained Hibernate XML configuration files and database mappings.
- Received a full-time Software Engineer offer based on performance.

PROJECTS

Alaska MMIS TSU Portal

Technologies: Core Java, JSP, Hibernate, JDBC, XML, HTML, CSS, JavaScript, Oracle

- Resolved 15+ critical TSU defects in the Alaska Medicaid Management Information System (MMIS) , ensuring regulatory compliance and timely delivery.
- Reduced UAT portal failure rate by identifying and fixing recurring issues across multiple sprint cycles.
- Prepared technical documentation and JUnit unit test cases; led triage calls to resolve project blockers and improve delivery efficiency.
- Supported maintenance and enhancements for HIPAA-compliant healthcare claims processing workflow in a regulated enterprise environment.

Task Management System

Technologies: Java, Spring Boot, React.js, PostgreSQL, REST APIs, JUnit, Maven

- Developed a Task Management application using **Spring Boot, React.js, and PostgreSQL**.
- Built **RESTful APIs** for task creation, update, retrieval, and deletion.
- Developed responsive user interfaces using **React.js** and integrated them with backend services.
- Implemented **CRUD operations** using Spring Data JPA and PostgreSQL.
- Added input validation, exception handling, and unit testing using **JUnit**.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering & Artificial Intelligence

GITA Autonomous College, Bhubaneswar | **2021 – 2025** | **CGPA: 8.04**

LANGUAGES

English, Hindi, Odia, Japanese (Basic)

CERTIFICATIONS

*Spring Framework, Spring Boot & Spring AI (Generative AI) – **Udemy***
